BIO

Living in Toronto since 2018, I spent most of my life in France where I started experimenting with drawing, collage, soundscapes, while working a day job in marketing. My works are freestyle, conceptual pieces depicting chaos, darkness, absurd human patterns, and nostalgia.

On the music side, after a few years performing in hard rock, metal and pop cover bands in festivals, bars and various events, I am back to prog-rock-fusion composition with www.7times.ca.
